## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's amendments to the claims, filed 10/2/2006, are accepted and appreciated by the examiner. Applicant has canceled claims 9 and 22. In response to these amendments and the interview with the applicant on 8/24/2006, examiner's previous grounds for rejection of the claims are withdrawn.

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Waxman on 11/1/2006.

The application has been amended as follows:

In claim 10, on the third line of the claim, please replace the word "raw" with the words "dark value".

In claim 23, on the third line of the claim, please replace the word "raw" with the words "dark value".

### ***Allowable Subject Matter***

Claims 1-8,10-11,15-21,23-25 are allowed.

The following is an examiner's statement of reasons for allowance: The claims have been distinguished from the prior art for reasons stated in the previous office actions and

Art Unit: 2863

responses and reasoning put for the interview on 8/24/2006. Specifically, the claimed invention takes measurements with the x-ray beam off for the collection of dark value data. Prior art of record, though shown to teach measurements with the beam off, is doing so for other reasons and does not produce dark value data as claimed. The motivation for this inventive limitation has been shown to be novel and non-obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
